

PROFESSIONAL PROFILE

I am a self-thought Front-End Developer and a creative person, and I love to learn and develop new skills that will help me in my journey.

I started learning Front-End Development on my own in the summer of 2019 and since then I didn't hesitate to learn and discover more. I started with creating personal projects, some to help others, some for personal use, and then in 2021 I started freelancing and making a name in this space.

This year I am finishing high school and now I am seeking an opportunity to expand my knowledge and skills while working in a team. Please take into consideration my resume for the Front-End Web Developer job opening you currently have. For any other information, do not hesitate to contact me.

EDUCATION

Colegiul National "Emil Botta" / September 2019 - June 2023
Social Science

I am finishing high school specializing in Social Science (in Romanian " Stiinte Sociale") with a high school diploma Bacculaureate.

WORK EXPERIENCE

Freelancer / JUN 2021 - JAN 2023

Front-End Developer

Besides my personal projects, I did freelancing on different platforms like UpWork or worked with clients that personally contact me.

As a freelancer doing Front-End Development, I developed websites from zero but also worked on teams and projects.

- Completed more than 20 one-time contract projects with people around the world and worked on many other websites.
- Developed websites from designs and maintained them after finishing.
- Edited and improved old websites
- Learned new web development skills and made connections.
- Worked in teams and developed new personal skills such as time management, flexibility, creativity, and team effort.
- Applied web development skills such as React JS, Next JS, JavaScript, CSS3/SCSS, HTML5, and more.
- Wrote clean and reusable code.

Personal Projects

Front-End Development & Web Design

Along my journey in web development, I coded and developed lots of websites from Landing Pages, Web Applications, web games and code editor themes.

A good part of my projects and some of my clients can be found on my GitHub profile: <https://github.com/tudorale/>
